FRONT-END DEVELOPER

My web development skills complement very well with my knowledge in communication, design, and digital marketing. I consider myself a self-taught, flexible, and problem-solving person. My goal is to further my professional development in the IT world. I enjoy working as part of a team, always striving to contribute with my best. I am constantly willing to learn new skills and ready to face any challenge that comes my way.

SKILLS

Technologies: HTML, CSS, JavaScript, React JS, Tailwind, Bootstrap, Sass
